

## **Rudolf SLAVICEK**

MD, DMD, PhD, Professor Emeritus  
School of Interdisciplinary Dentistry  
Medical University of Vienna  
Vienna, Austria

UNIVERSITY  
OF VIENNA

MEDICAL  
UNIVERSITY  
OF VIENNA

Prof. Rudolf Slavicek is the father of “modern gnathology” worldwide and the “pope of dentistry” in Europe. He is the founder of the “Center of Diagnosis and Therapy of Craniomandibular Functional Disorders” in Vienna.

He is also the head of the “Center of Interdisciplinary Dentistry” at Danube University in Krems, Austria.

Currently, as Professor Emeritus at the Danube University, he is head of the master program in “Diagnosis, Treatment Planning and Therapy in Interdisciplinary Dentistry”.

His scientific research on joint path registration (condylography, axiography), and combining it with cephalometrics, the articulator and clinical diagnosis is unique in the world.

He is the author of the textbook “The Masticatory Organ”. Prof. Slavicek is an international authority in diagnosis, treatment planning, and therapy in interdisciplinary dentistry. He published hundreds of articles.

He has lectured around the world since the 1970s. His research and articles set the standard for clinical studies in dentistry.
