Stomatology.edu is a new biannual dental journal whose main purpose is to inform researchers, educators, graduates, postgraduates and practitioners about the latest trends in the field, which followed, would bring immediate and lasting benefits to the patients; and about opinions of the most authorized specialists on what is best in current practice, for the good of both, patient and dentist.

Stomatology.edu is a peer-reviewed, open access European dental journal to be database indexed, meant to contribute to the development and completion of the medical training of practitioners from Romania, Republic of Moldova and other Central and Eastern Europe countries for, as Dr. Greene Vardiman Black stated: “the professional man has no right to be other than a continual student”.

To get points under the Continual Medical Education Program, at the end of each article there is a questionnaire.

The authors will approach such dental practice topics, as: Dental Anatomy, Anesthesiology, Cariology, Community Dentistry, Dentoalveolar Surgery, Oral and Maxillofacial Surgery, Oral and Dental Diagnosis, Endodontics, Cosmetic Dentistry, Dental Ergonomics, Dental Hygiene, Dental Laser, Dental Materials, Dental Microscopy, Dental Photography, Dental Public Health, Dental Radiology, Gerodontology, Oral Implantology, Oral Microbiology, Oral Pathology, Oro-Dental Management, Oro-Dental Prevention, Occlusion and TMJ, Orofacial Pain, Orthodontics and Dento-Facial Orthopedics, Pedodontics, Periodontology, Posturology, Prosthetic Dentistry, Computerized Dental Prosthetics, Minimally Invasive Dentistry, Dental Technology and Emergencies at the Dentist's.

We underline the high professional status of editorial team members and the exceptional importance in the field of Editors-in-Chief: Professor Rolf Ewers from Medical University of Vienna; Professor Jean-François Roulet from University of Florida (Editor-in-Chief of three ISI quoted journals) and Reviewer-in-Chief, Professor Stephen F. Rosenstiel, from Ohio State University (Editor-in-Chief of Journal of Prosthetic Dentistry) accepting to share their expertise with us.

By national and international scientific contribution of editors and of peer review experts we hope for a clear improvement of the medical care quality through better and more effective treatments applied by professionals in Romania, Republic of Moldova and Central and Eastern Europe, thus proving that *Stomatology.edu* Journal is indeed a world of educational resources for each practice.

SO HELP US, GOD!
