

The **Stomatology Edu Journal** (*Stoma Edu J*) is one of the first **Green Open Access** journals in the field of dental medicine, publishing well-established authors, but equally committed to encouraging **early career researchers and professionals** alike to publish their work after a non-partisan, objective, double-blind rigorous peer-reviewed process. Our aim is to publish in the shortest possible time frame and ensure the rapid dissemination of your work via our journal page, but also through our indexing partners (**Dimensions, EBSCO, KUDOS, Google Scholar, Scilit**) which reach the vast mass of dental researchers, professionals and practitioners across the world. This journal fully adheres and complies to the policies and principles of the Committee on Publication Ethics (COPE).

### 1. Submission Instructions

The **Stomatology Edu Journal** (*Stoma Edu J*) publishes articles written only in English. All articles will be accompanied by the signed copyright form which can be returned by e-mail, fax (as scanned documents). All the responsibility for the originality of the material sent belongs to the author(s) alone. Each article will be evaluated by the peer-review committee composed of two independent peer-reviewers, in a blinded fashion, according to the peer-review protocol. All manuscripts must be original and exclusive. The Stomatology Edu Journal Editor will consider only articles that are original, have not been published elsewhere and have been submitted exclusively to the Stomatology Edu Journal. The manuscripts should be submitted online at [www.ManuscriptManager.net/stom](http://www.ManuscriptManager.net/stom).

### 2. Ethics in publishing

The **Stomatology Edu Journal** (*Stoma Edu J*) and its editorial board fully adhere and comply to the policies and principles of Committee on Publication Ethics (COPE) (<https://publicationethics.org/files/2008CodeofConduct.pdf>). Your manuscript should not contain any information that has already been published. If you include already published figures or images, please obtain the necessary permission from the copyright holder to publish under the CC-BY license. Plagiarism, data fabrication and image manipulation are not tolerated. Plagiarism is not acceptable in the Stomatology Edu Journal (*Stoma Edu J*) submissions. Plagiarism includes copying text, ideas, images, or data from another source, even from your own publications, without giving any credit to the original source. Reuse of text that is copied from another source must be between quotes and the original source must be cited. If a study's design or the manuscript's structure or language has been inspired by previous works, these works must be explicitly cited.

If plagiarism is detected during the peer review process, the manuscript may be rejected. If plagiarism is detected after publication, we may publish a correction or retract the paper. Image files must not be manipulated or adjusted in any way that could lead to misinterpretation of the information provided by the original image. To verify the originality of content submitted to our journals, we use iThenticate ([www.ithenticate.com](http://www.ithenticate.com)) to check submissions against previous publications. All submitted manuscripts will be checked for any possible duplication or plagiarism with iThenticate ([www.ithenticate.com](http://www.ithenticate.com)). Nevertheless, corresponding authors are responsible for any fraud, intentional or unintentional malpractice.

### 3. Articles sent for publishing

The **Stomatology Edu Journal** (*Stoma Edu J*) publishes: original articles; reviews; case reports; technical procedures; consensus declaration coming from an association or from a group of specialists; letters to the editor. All articles must be up to 3,000 and 5,000 words for meta-analysis (the word count is for the manuscript text only). Letters to the editor must not exceed 400 words of text and have no more than 3 authors. Letters to the editor can be related to an article already published in the journal or it can represent original scientific contributions or events news/presentations etc. of interest for the reader.

### 4. Permissions and Ethics

For citations, tables, figures etc. which are not original, these must be accompanied by the written permission for their use and the full reference must be provided. Photographs of identifiable persons must be sent alongside the written permission of the person(s) and all regions that may allow the identification of the subject must be covered. The author must

have obtained, for all studies including human subjects, the permission of the subjects to be part of the study whilst keeping their anonymity. By sending the article, the author declares that he obtained this permission from all his subjects. All studies must respect the [Helsinki Declaration \(2013\)](#). For human and animal studies, the authors must have obtained the approval of the ethics committee from the University/Institute/etc. where the study was done. Consent for publication is required for studies involving human subjects - ALL case reports, letters that describe cases and some original articles. Cohort studies are exempt; instead evidence of IRB approval (name of IRB, date of approval and approval code/reference number) must be provided.

### 5. Manuscript preparation

The article must be written in conformity with the general recommendations of the International Committee of Medical Journal Editors.

<http://www.icmje.org/icmje-recommendations.pdf>

The **Stomatology Edu Journal** (*Stoma Edu J*) uses double-blind review, which means that both the reviewer and author name(s) are not allowed to be revealed to one another for a manuscript under review. The identities of the authors are concealed from the reviewers, and vice versa. To facilitate this, please include the following separately:

**Title page** (with author details): This should include the title, authors' names and affiliations, and a complete address for the corresponding author including an e-mail address, Author Contributions, Acknowledgements and Curriculum Vitae.

**Blinded manuscript** (no author details): The main body of the paper (including the references, figures, and tables) should not include any identifying information, such as the authors' names or affiliations. The articles must be sent either as a Microsoft Word 2000 document (\*.doc) or as a Microsoft Word 2003/16/19 document (\*.docx). The article will be written using Times New Roman font, size 12 for the characters with one and half (1 1/2) spaces between paragraphs. The manuscript must be sent in its final form. The pages will be numbered with the manuscript containing the following sections: title, authors, abstract, keywords, the text of article, contributions, acknowledgments, references, the figures and the tables legend.

**A. The title of the manuscript** will have a maximum of 100 characters without spaces, written in title case, centered capitals, and in 12 point bold Times New Roman font at the top of page. Abbreviations should be avoided within the title.

**B. The author(s)** will send their full name(s) and surname(s), the highest academic position, their full titles and their affiliations. All names are listed together and separated by commas. Provide exact and correct author names as these will be indexed in official archives. Affiliations should be keyed to the author's name with superscript numbers and be listed as follows: Laboratory, Department, Institute, Organization, City, State abbreviation (USA, Canada, Australia), and Country (without detailed address information such as city zip codes or street names).

**The correspondent author** will send his/her full name and surname, the highest academic position, his/her full title, his/her affiliation, his/her institution address, his/her telephone, fax and e-mail. The authors will send this information in the same format as that in the published articles.

#### C. The Structured Abstract

The abstract can have a maximum of 250 words. After the abstract, the author(s) must mention a maximum of 5 keywords. Keywords must be selected from **Medline Mesh**. Abbreviations are not accepted in the title or the abstract.

**The abstract for Original Scientific Articles** should be no more than 250 words using the following structure: Introduction; Methodology; Results; Conclusion.

**The abstract for Review Articles** should be no more than 250 words with the authors covering all the following information regarding the subject presented under the following subheadings: Background, Objective, Data Sources, Study Selection, Data Extraction, Data Synthesis.

**The abstract for Case Reports** should be no more than 250 words using the following structure: Aim, Summary and Key learning points: provide up to 5 short statements of the report.

**The abstract for Clinical Articles** should be no more than 250 words using the following structure: Aim, Methodology, Results and Conclusions.

#### D. The Article Text

##### Headings and Sub-headings

Except for special names (e.g. GABAergic), capitalize only the first letter of headings and subheadings. Headings and subheadings need to be defined in Times New Roman, 12, bold. You may insert up to 5 heading levels into your manuscript (not more than for example: 3.2.2.1.2 Heading title).

For original articles:

**1. Introduction** - a presentation of the most important aspects in the studied domain without doing a review of the literature. The purpose of this part is to present and backup the hypothesis on which the study was based.

**2. Material and Methods** - this section will include all required information so that the reader can verify the validity of the study including, but not limited to, subjects, measurements, statistics and ethics. The methods used should be discussed (why the methods have been chosen, which the limitations/advantages). A paragraph about the statistical analysis is required as well.

**3. Results** - the results of the study will be presented in a descending order of importance. An interpretation of the results will not be done in this section.

**4. Discussion** - the authors will present the way the results backup the original hypothesis, as well as the way in which the results are backed up or contradicted by the published literature. A paragraph must be dedicated to presenting the limitations of the study.

**5. Conclusion** - The conclusion presents the implications of this latest work. In addition, authors may consider discussing future plans or recommendations for future research etc. For all other types of articles, we recommend the use of a clear structure based on sections and sub-sections.

##### E. Author Contributions

The Author Contributions section is mandatory for all articles, including articles by sole authors. The Author Contributions statement must describe the contributions of individual authors and, in doing so, all authors agree to be accountable for the content of the work. Please list only 2 initials for each author, without periods, but separated by commas (e.g. AC, AS). In the case of two authors with the same initials, please use their middle initial to differentiate between them (e.g. AEC, ASC). Each author must be able to prove his active participation in the study by contributing to the concept, protocol, data gathering or analysis, their interpretation or by critically revising the manuscript.

##### F. Acknowledgments

Acknowledge persons who have made substantive contributions to the study. Specify grant or other financial support, citing the name of the supporting organization and grant number.

##### G. References

- The references will be written using the Vancouver style (<https://www.imperial.ac.uk/media/imperial-college/administration-and-support-services/library/public/vancouver.pdf>). All references that are identified with DOI (Digital Object Identifier) must be mentioned.

- For each reference use active links to the full text (DOI link), free PMC article, PubMed, Google Scholar, Scopus pages, and WoS were they exist:

- For all references identified with DOI the full-text link must be the CrossRef hyperlink

##### Examples

###### Articles with DOI

Singbartl G. Pre-operative autologous blood donation: clinical parameters and efficacy. *Blood Transfus.* 2011;9(1):10-18.

[CrossRef] [Free PMC Article] [PubMed] Google Scholar Scopus WoS

###### Articles without DOI

Mehta H, Shah S. Management of Buccal Gap and Resorption of Buccal Plate in Immediate Implant Placement: A Clinical Case Report. *J Int Oral Health.* 2015;7(Suppl 1):72-75.

[Full text links] [PubMed] Google Scholar

- The references will be numbered, in the order they appear in the text, in square brackets, as such: [3], [5,7-9].

- All sources found in the text must be present in the bibliography and all the papers mentioned in the bibliography must appear in the text.

- For references with more than 5 authors, list the first 3 authors followed by "et al."

- Full-page ranges should be given in expanded form (e.g., 426-429, not 426-9).

- If non-English-language titles are translated into English, bracketed indication of the original language should follow the title.

- All journals will be abbreviated and italicized names of journals according to the style in PubMed; refer to the National Library of Medicine (NLM) Journals Database (<http://www.ncbi.nlm.nih.gov/nlmcatalog/journals>) if needed. Journal names will be abbreviated according to the [List of Title Word Abbreviations](#)

- Information obtained from sources which are not published yet, but accepted for publishing will include at the end of the reference the mention "in print" between round parentheses.

- If the cited results have not been published yet the mention will be "personal communication" written in the text of article between round parentheses.

- Only references read by the authors of the article will be cited.

- An original article will have at most 50 references, a review will have at most 100 references, a letter to the editor 5 references, whilst all other types of articles will have the minimum number of references required.

#### 6. Curriculum Vitae - Ultra Short version

Please provide a brief presentation of the first author and his contribution in the field, of maximum 130 words (with a 3.5x4.5 cm color photo).

#### 7. Figures, Images, Tables

All illustrations must be numbered and cited in the text in order of appearance.

Figures and Images will be drawn professionally and sent in separate file(s) as jpeg, tiff or png files. Illustrations should preferably fill single column width (54 mm) after reduction, although in some cases 113 mm (double column) and 171 mm (full page) widths will be accepted. See the [Image quality specifications chart](#) for details. Image files also must be cropped as close to the actual image as possible.

In the text, each figure must be represented by a number, a title and a description. The authors will indicate where should the figure be placed in the text. All images or figures must come from the author's personal collection or the author must have rights to publish the image or figure. All images must be at or above [intended display size](#), with the following image resolutions: Line Art 800 dpi, Combination (Line Art + Halftone) 600 dpi, Halftone 300 dpi. We do not accept images or figures taken from the Internet.

The Tooth Identification System used in manuscripts must conform to the FDI International System. Units used in manuscripts must conform to the Système International d'Unités (SI).

Tables will be included in the text and each table will have a number and a short description if required.

#### 8. Ownership Rights

By sending the article for publication the author(s):

- take full responsibility for the scientific content of the text and for the accuracy of the send data;

- become (co)author(s) of the manuscript (all further plagiarism accusation are addressed solely to the author(s) who signed the manuscript);

- declare they are the rightful owners of the images, figures and/or information sent for publishing and that they have the permission to publish all the materials for which they do not own the intellectual property rights;

- declare that the message/content of the manuscript is not influenced in anyway by commercial interests/previous engagements/ any sort of relations with other people or companies;

- transfer all rights for the manuscript to the Editorial Council for the *Stomatology Edu Journal* (*Stoma Edu J*).

#### 9. Other

Previously mentioned limitations can be ignored in special cases with the agreement of the chief-editor and/or the publisher. All published materials cannot be returned.

Not taking into consideration the recommendations mentioned before can lead to delay in publishing the materials or may lead to not publishing the article.

The *Stomatology Edu Journal* (*Stoma Edu J*) also helps authors measure the impact of their research through specialist partnerships with Kudos and Altmetric.
