

Gianluca Martino TARTAGLIA

DDS, PhD, Associate Professor
Functional Anatomy Research Center
LAFAS-Laboratory of Functional
Anatomy of the Stomatognathic
Apparatus
Department of Biomedical Sciences
for Health
Faculty of Medicine
University of Milan
Milan, Italy

Gianluca Martino Tartaglia received his DDS degree from the University of Milan School of Dentistry, Italy in 1991, and his PhD in Morphological Sciences from the same university in 1996. He is a confident healthcare professional with a long track record of more than 25 years of successfully diagnosing and treating patients' oral dental conditions. He is the clinical coordinator of a multidisciplinary dental care team with a full integration of diagnostic and clinical resources. He has conducted research activities at LAFAS, Università degli Studi di Milano, Italy, since its foundation (1990)

Main areas of expertise are Oral surgery and implantology, Oral rehabilitation, TMD/TMJ diagnosis and treatment, Clinical organization and Management. Proof to that stand his 25 years of experience in research, teaching and clinical activities exclusively dedicated to oral surgery, oral rehabilitation and clinical organization and management.

He is also an Associate Professor, holder of Scientific Abilitation. His Scopus Author ID is 7003489156.

He has published more than 190 full papers (H-index google scholar 36-28/01/2019, total citations number 3914-28/01/2019) on impacted international journals on various topics of functional anatomy of the stomatognathic apparatus, and on the clinical applications of instrumental evaluations in dentistry, including electromyography, kinesiography, growth, development and aging of craniofacial structures (soft tissues, dental arches, palate), treatment of craniomandibular disorders, treatment of cleft palate patients and on various clinical trials.

Research interests: oral surgery, oral implantology, oral rehabilitation, TMD/TMJ diagnosis and treatment, clinical organization and management.
